Subject: "Related Programs" Report

As promised at the August BDAC meeting, we have completed a preliminary draft of the report entitled "Programs and Activities Effecting the Bay-Delta System". This document, called the "Related Programs" report, provides an inventory and brief summary of ongoing programs and efforts related to the CALFED Bay-Delta Program and effecting the Bay-Delta System. This document will be continually updated as changes occur to existing programs and as new programs are added. BDAC members are encouraged to review this report to better understand these programs and to provide CALFED staff updated information on programs with which they are familiar.

**Agenda Item 5a**
